Preparing a CSV payment data file

Before preparing the CSV payment data file, note the following points:

- Follow Col A (Column Name) for formatting payment file header. Any Column Name mismatch will cause payment file failure.
- Please refer to the File Specifications and Sample CSV to prepare a CSV payment file.
- ALL mandatory fields must be provided with payment data.
    - ALL data should follow the data format & data length. Any format/length issue of provided data will cause payment rejection.
    - Read the limitations carefully.
    - The file must be saved in **CSV file format in comma delimited** on your Local Drive.
    - The payment data can be arranged in different column sequence.
    - Remove all empty rows before uploading the payment file.

- Please refer to Sample CSV file
- Host To Host – H2H: HEADER rows (row 1 and 2) are mandatory.
